

Kristiyan Garchev

To Whom It May Concern:

I am Tsvetelin Kulinski, Engineering Manager in Trading 212 with 10 years of experience.

It is my pleasure to recommend Kristiyan Garchev. Kristiyan has worked in Trading 212 for almost a year. He has been part of one of the most critical teams in the company and I have been the engineering manager of this team. I have worked closely with him during his period in the company.

One of Kristiyan's most remarkable qualities is his smart thinking. He possesses a sharp analytical mind and demonstrate an ability to tackle complex issues.

Furthermore, Kristiyan possesses proficiency in mathematics. He is a standout candidate for roles that require a strong foundation in mathematical theory and its practical application.

During the time here, he improved his programming skills a lot. He gained real world experience in both Python and Java. He also showed ability to work with new technologies like Spring, Apache Cassandra, Redis and Kafka. He was able to comply with the software development lifecycle, from clearing requirements to monitoring features in production.

I am confident Kristiyan would be a great fit a Software Engineer position and strongly recommend his candidature.
