

RECOMMENDATION LETTER
for
Kristiyan Ivanov Garchev,
3rd-Year Student in Computer Science
Faculty of Mathematics and Informatics
Sofia University "St. Kliment Ohridski"
for participation in the INSAIT SURF Program

by
Assoc. Prof. Asen Bozhilov
Department of Algebra
Faculty of Mathematics and Informatics
Sofia University "St. Kliment Ohridski"

I am pleased to recommend Kristiyan Garchev, a third-year Computer Science student at Sofia University's Faculty of Mathematics and Informatics, for the INSAIT Summer Internship Program. Having worked with Kristiyan since his first year, I have witnessed his exceptional growth as a student, leader, and mentor, making him an outstanding candidate for your program.

Kristiyan has achieved remarkable success on the international stage as a key member of Sofia University's mathematics team, earning international medals and contributing to the team's achievements in prestigious competitions. His exceptional problem-solving skills, strategic thinking, and ability to perform under pressure make him a valuable team player. His success in these competitive settings showcases his analytical mindset and determination to excel.

Academically, Kristiyan consistently stands out. He excels in challenging mathematics and computer science subjects, demonstrating an exceptional ability to understand complex concepts and apply them creatively. His intellectual curiosity drives him to explore innovative solutions, setting him apart as one of the most talented students in his cohort.

Beyond his academic achievements, Kristiyan is an outstanding teaching assistant. He has successfully mentored students in courses such as Linear Algebra, Abstract Algebra, Discrete Structures, and Competitive Mathematics, earning recognition for his clear explanations and supportive teaching style. This semester, I am glad to have him join me once again as a teaching assistant in Competitive Mathematics, reflecting his deep understanding of the subject and his natural teaching ability.

Over the past three years, Kristiyan has consistently taken on new challenges, pushing himself to achieve more each year. He balances his coursework, teaching responsibilities, and competition preparation with remarkable discipline and determination. His commitment to continuous learning and his drive to push his limits demonstrate his readiness for the demands of the INSAIT program.

In conclusion, Kristiyan's exceptional analytical abilities, passion for teaching, and collaborative nature make him an ideal candidate for the INSAIT Summer Internship Program. His academic achievements, international competition success, and commitment to helping others highlight his potential to thrive in your program and make meaningful contributions to your research projects.

26.02.2025

Sincerely,
